

EXCEED EXPECTATIONS

Exceed[™] SERIES

Introducing our **3MW+**
high torque density series
for outstanding performance

moventas | GEARED FOR
NEW ENERGY

Exceed[™] SERIES

Highest torque carrying capacity product platform for high and medium speed drivetrains in 3MW and up.

Provides competitive edge by lowering the LCoE of wind turbines with

- **20% more torque density**
- **10% smaller size**
- **100% proven technology**

New design from the gearbox pioneer with more than 30 years of experience in introducing innovations to the industry. Platform approach enables adaptability, scalability and cost efficiency. Every design verified by simulation and testing. **Only available from Moventas.**

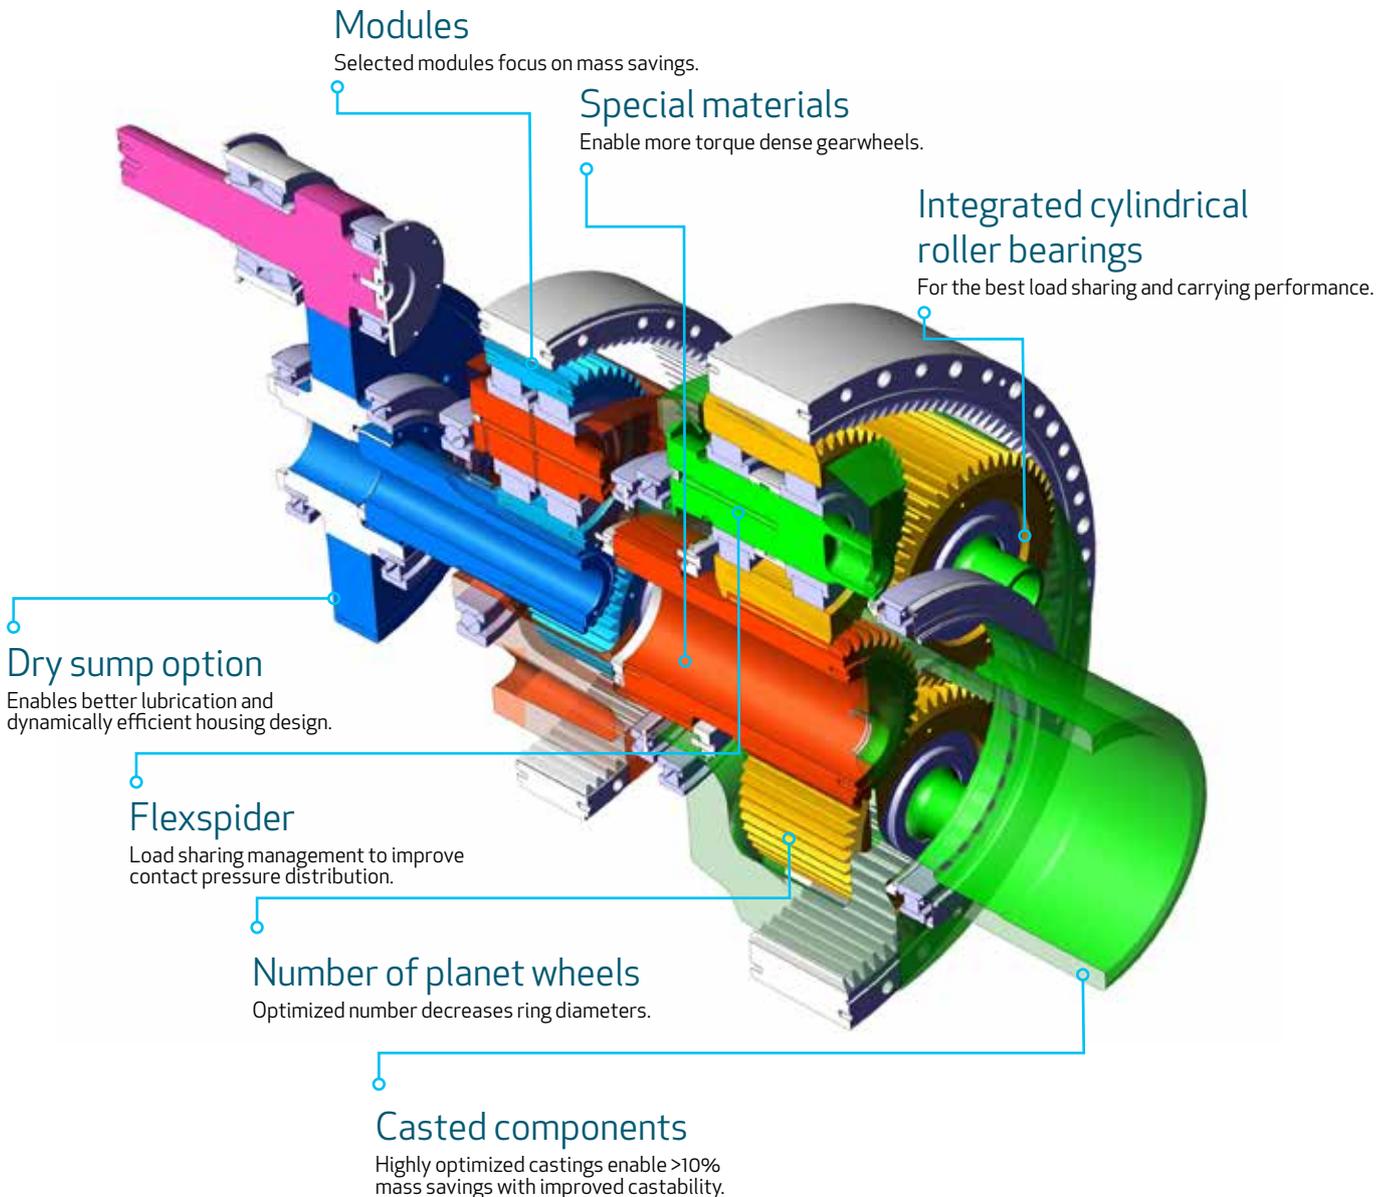

IT'S THE SURVIVAL OF THE FITTEST.
EXCEED HELPS YOU **WIN.**

moventas | GEARED FOR
NEW ENERGY

20% more torque density

This is how we did it:

We took measured gearbox values of the technology we've been relying on for ten years, recalculated and optimized them with new design methods and took them to the next level – for your benefit.

+ Why not think ahead?

- Availability Guarantee with Moventas Service.
- Keep your drivetrain running smoothly with the Moventas CMA_S Condition Management System.
